I'm sent to the world to eat and bait, to live and then to die. But as I think what my duty is, I get sure that I'm sent to the world to keep one of the best creatures of the world alive and to save his life against his enemies.

That creature that I told you about, was not a timid one, but great and brave.

Don't be amazed! All I did was impossible in a natural world, but by God's permission I did it in this real world.

I am a weaver king, all the time I am weaving. God let me do what was a miracle! You know all messengers should have at least a miracle.

By now, haven't you known me yet?
